

# Club Wind Meter Access Instructions

We now have a wind meter (anemometer) at the club that you can access over the internet to see how the wind is before you go. To access it, you use an app on your phone.

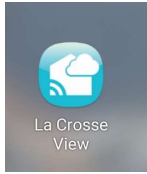

These instructions cover:

- Using the App to get the wind details (Section 1)
- How to set up the App in the first place (section 2).

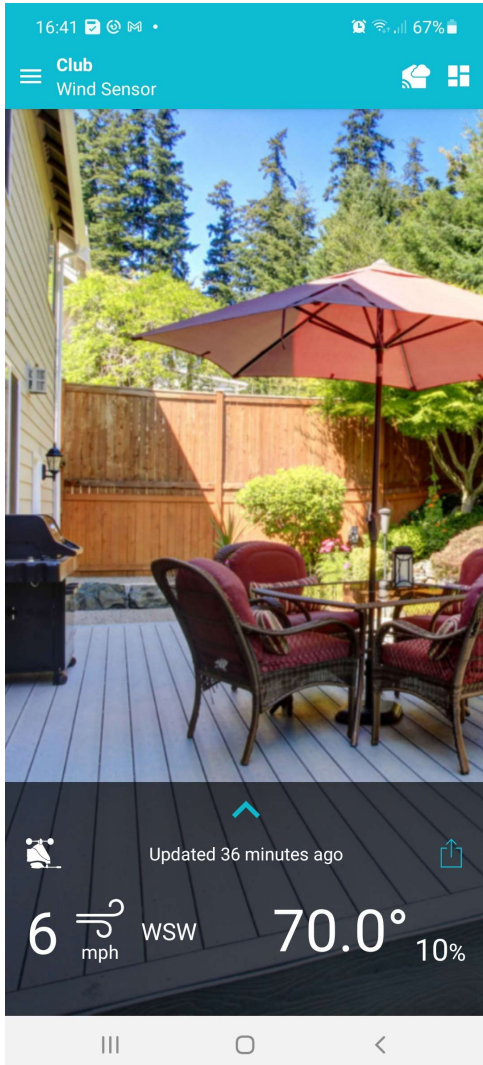

Any questions or comments, please feel free to post them on the "Who's Sailing" WhatsApp group (if you're not on the group ask to be added).

## Using the App

1. Open the "La Crosse" App in your phone

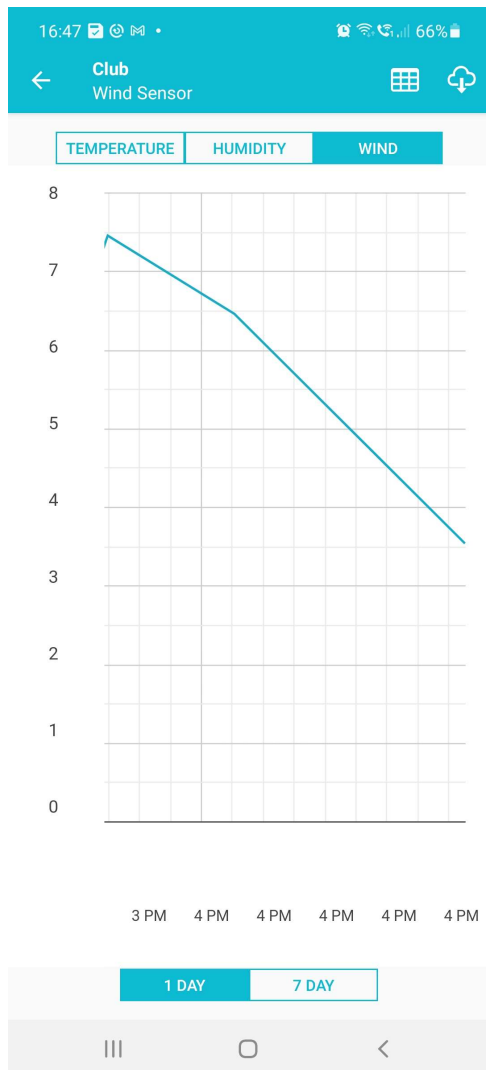

2. You will now see the main screen

3. This shows you the current wind speeds and direction.
4. To see more details slide the blue up arrow above the update message upwards. This shows more details.

5. You can also see a graph of details. To see this select the blue opposite arrows on the same line as "Graph".
6. The graph is then displayed.

7. If wind is not selected then select it on the top line. NB - Temperature doesn't work.
8. You can also select a 7 day view at the bottom of the screen.
9. You can also see previous readings by selecting the grid icon near the top right hand corner of the screen.

16:51 65%		
Data		
Data Received Past 24hrs		
May 02, 16:42:37	3.5mph	N
May 02, 16:05:19	6.5mph	WSW
May 02, 15:44:50	7.5mph	WSW
May 02, 15:21:47	2.1mph	SE
May 02, 15:20:11	3.2mph	SE
May 02, 15:18:57	2.7mph	SSE
May 02, 15:00:44	7.0mph	WSW
May 02, 14:39:46	1.4mph	ENE
May 02, 14:21:24	3.5mph	NNE
May 02, 14:01:27	3.3mph	N
May 02, 13:40:34	3.3mph	W
May 02, 13:22:21	0.0mph	

10. That's the full tour!

11. Any questions or comments, post them on the "Who's Sailing" WhatsApp group (if you're not on the group ask to be added).

## Set up overview

Download the App

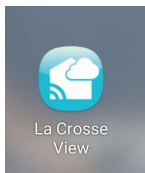

Set up an account

Link the club wind device to the account (device ID - 082C2F-aBC)

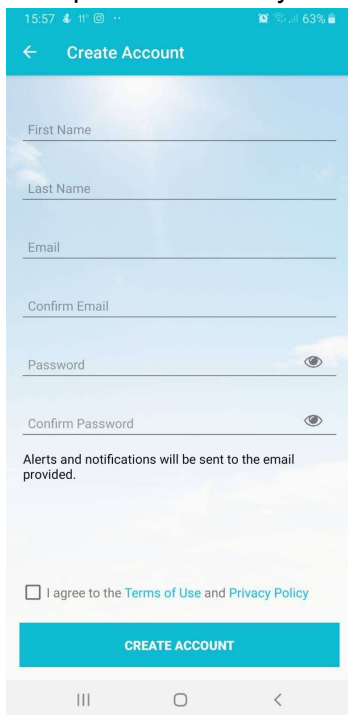

## Set up details

(These instructions were based on the set up in a Samsung Galaxy. Other phones may not be exactly the same but the basics are very similar).

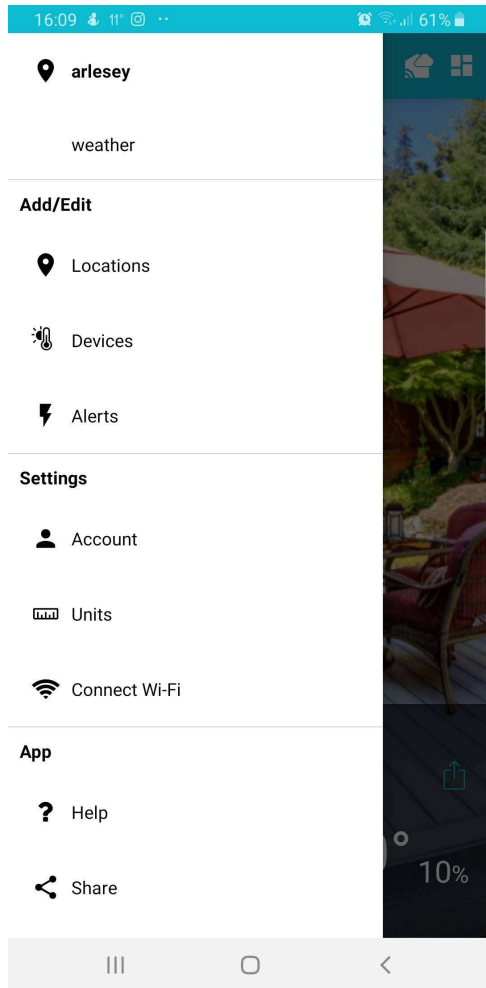

1. Download the "La Crosse View" App.

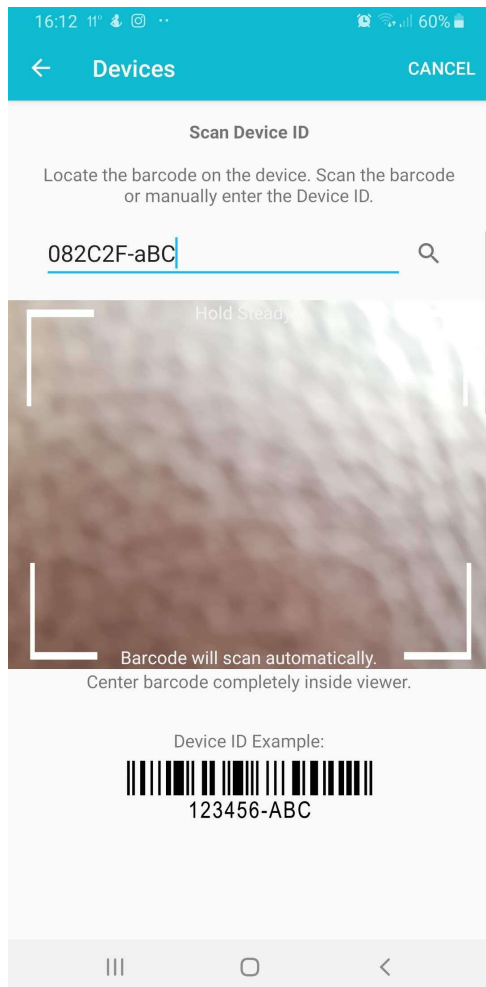

2. Set up an account of your own in the App

The screenshot shows the "Create Account" screen of the La Crosse View app. The screen has a light blue background with a subtle cloud pattern. At the top, there is a teal header bar with a back arrow and the text "Create Account". Below the header, there are several input fields: "First Name", "Last Name", "Email", "Confirm Email", "Password", and "Confirm Password". Each field has a corresponding label above it. To the right of the "Password" and "Confirm Password" fields, there are eye icons to toggle visibility. Below the input fields, there is a line of text: "Alerts and notifications will be sent to the email provided." At the bottom, there is a checkbox with the text "I agree to the [Terms of Use](#) and [Privacy Policy](#)". Below the checkbox is a teal button with the text "CREATE ACCOUNT". At the very bottom of the screen, there is a white navigation bar with three icons: a hamburger menu (three horizontal lines), a home icon (a circle), and a back arrow.

3. Select the three horizontal lines in the upper left corner
4. Select devices

5. Select the blue circle with a plus sign in the bottom right corner
6. Enter the device ID - 082C2F-aBC (the hyphen is added automatically by the App)

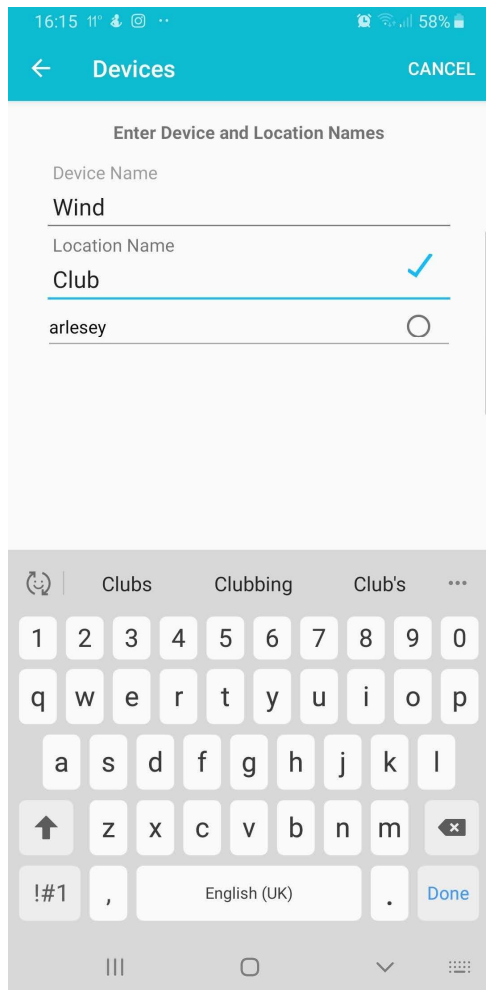

7. Select the magnifying glass to search for the device.
8. Confirm the device

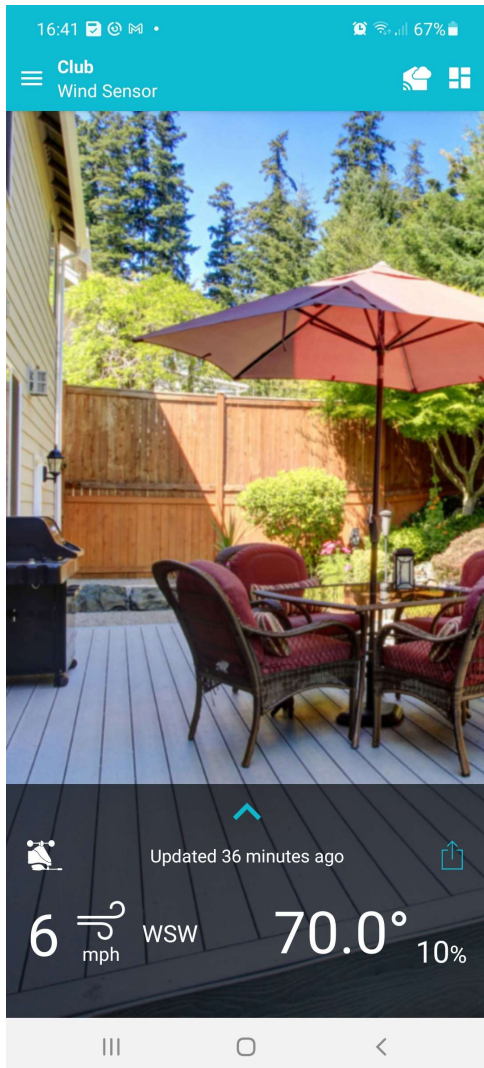

9. Give the device a name and location. Here is been named "wind" with a location "club".

10. Select "Done"

11. Go back to the main page

12. You can now view the wind speed!
